

DecoFlex RTS Wall Switch

TECHNICAL FEATURES

(custom labelled buttons available)

Description

The **DecoFlex RTS Wall Switch** is an in-wall wireless control for RTS motors. Switches provide users a simple & familiar way of adjusting their shades. Each switch communicates directly with any RTS motor via radio frequency (433.42 MHz) ensuring fast and reliable operation. Switches are available in 1 - 5 channel versions.

- Radio Frequency: 433.42MHz
- Power: 3V lithium battery, CR 2450 type
- Operating temperature: +5 C/41 F to +40 C/104 F
- RF Range: Up to 65 Ft.
- Dimensions: 1 7/16" x 1 1/2" x 4 1/16" (without wall plate)
- Fits into standard Decora Wall Plates

RTS Compatible

Decoflex switches are compatible with all Radio Technology Somfy (RTS) motors and receivers. Each channel can control an individual motorized product or a group of motorized products which provides practical and flexible control options.

Operation

Select the appropriate channel button(s) and the adjacent amber LED(s) with illuminate. Then simply press the command button (up, down, stop) to adjust your window covering(s) to the desired position.

What's In The Box

- Keypad
- Wall plate with screws
- 1" screws

Simple To Install

Installation is quick and simple, no wiring is required. Included with each switch is a 3V lithium CR 2450 type lithium battery eliminating the need for an electrician. The DecoFlex RTS Wall Switch may be installed independently or next to an existing light switch (shown at left) using the included wall mounting bracket and the appropriate wall plate.
